## Chapter 1 : Deviant Behavior 9th Edition

Collective behavior refers to events that suddenly emerge. these events do not conform to rules or laws but instead are shaped based on the issue at hand. Groups, though made up of individuals, have their own sets of norms. these sets develop as the group grows and interacts and can change a person's behavior that might be new to the group. The primary concern of this course is to examine interpersonal behavior events as they occur within group contexts. particular attention will be focused on intra-group and inter-group processes, and the applicability of social psychology to real life.
