Chapter 1 : Example Of Scientific Research Paper

It is possible to classify research methods as quantitative (based on numerical data) or qualitative (based on verbal data). Quantitative methods are associated with the scientific approach to research. An APA research paper model Thomas Delancy and Adam Solberg wrote the following research paper for a psychology class. As you review their paper, read the side notes and examine them. This section should assist research advocates to formulate useful questions to raise about clinical trial design. Questions are generic, but not exhaustive. Asking generic questions is often possible and even preferable to raising specific suggestions.
