Dell xps (xtreme performance system) is a line of high performance computers manufactured by dell. If your computer doesn't have a recovery partition, use a recovery disk to fix your computer of boot errors. our recovery disk – easy recovery essentials – works with all dell computers and all windows versions (xp, vista, 7 or 8). download easy recovery essentials.. some dell series models like the inspiron mini 9 or the vostro a90 do not support a restore process to factory settings (note to reader: this page is a continuation of my exploration, "inside the dell pc-restore partition". if you arrived at this page directly from an outside link, you can backup to the entry page of this treatise by clicking here.) Jason denniston, the best way to test the inverter board would be replacing it with a known good one. i usually hook up a test backlight bulb first (i remove them from cracked screens) and if it will not light up i install my test inverter and test it again.
